50 YEARS...HMMMM

Well, as my life is going, I have done much and plan to continue with Connie and my dog Brandy.

During my years at Helix I was a drummer playing with several bands; The Centurys, Nomads and The Jeritones which morphed into *THE IRON BUTTERFLY*

. After Helix, college and U.S.A.F., I was contracted by the U.S. Navy as a research pilot flying the Pacific and Hawaii. Simultaneously, I served as a Flight Instructor and Chief Pilot for a flight operations company. Next, I started my 25+ year career with Continental Airlines as a Flight Officer, Captain and Flight Crew Training Instructor. My dream to fly (starting at the age of 7) has been fulfilled! I was rewarded with another life's dream of driving a NASCAR race car on the racetrack at Texas Motor Speedway.

During these years Connie (Grossmont High School graduate), my teenage sweetheart, came back into my life. We now have homes on Lake Conroe, Texas and in La Mesa. Our careers have allowed us to experience living in Los Angeles CA, Seattle WA, Denver CO, Greensboro NC and Houston Texas. We've had the opportunity to enjoy cruising (27) via Transatlantic to Europe and the Caribbean Seas. We are race car and show car enthusiasts. Our retirement years will include continuing to fly, travel, enjoying cars and management of our commercial business.
