Jim and I celebrate 52 years of being together. We have a creative, loving daughter, a brilliant son-in-law and two incredible granddaughters, 9 and 16. I have worked as a Marriage, Family Therapist for over 35 years and for the last 8 years, I have specialized in Energy Psychology.

We lived in Montana for 8 years and returned to California when our daughter started having children. We live in the foothills of the Sierra Mountains in the old gold mine town of Rough and Ready. Our life is peaceful and serene and filled with lots of adventures.
