I graduated from San Diego State; BS Business Management in 1969; Masters in International Business from American Graduate School of International Business (Thunderbird) in 1972. I Married Jane Rothlisberg (3 years at Grossmont High; graduated Central High Phoenix, AZ class of '64). We have a married daughter living in Vancouver, BC with her husband and our 2 grandsons ages 16 and 12. We have a married son living in Austin, Texas with a wife and no children.

We moved to Tucson, AZ after I finished graduate school in 1972. I work for two years with an international real estate company that had offices in Tucson, Houston and Mexico City. In 1973, I founded Terramar Properties, a real estate brokerage, development and investment company which has now been in business over 40 years. I have spent the majority of my real estate career brokering and developing residential subdivisions for local and public homebuilders doing business in Tucson and Southern Arizona. Additionally, I am actively involved in developing industrial buildings in central Mexico.

In our spare time, Jane and I like to travel. We spend a lot of time in Vancouver visiting our grandsons. We also try to plan one major trip each year to a different part of the world.

Life in Tucson has been great. It seems like yesterday, not 50 years ago, that we were graduating from Helix!!
